

LYSAGHT

BOX MODERN STYLE

MINIMALIST AND BOLD

INSPIRATION TO BUILD BETTER

CHARACTERISTICS OF BOX MODERN HOUSES

The Box Modern architectural style is the new face of contemporary living, embraced for its minimalist design, clean lines and geometric precision. Characterised by cube-like volumes, a flat or hidden roofline with a parapet wall and expansive glass elements, it creates a bold and distinctive aesthetic.

The style prioritises open-plan layouts, maximising natural light and blurring lines between indoor and outdoor spaces. Monochromatic colour palettes, whites, greys and blacks, deliver a sophisticated appeal. Whether in urban landscapes or open countryside, Box Modern homes are a statement in form, function and individuality.

LYSAGHT® & ZENITH® CLADDING

DEFINING AUSTRALIA'S
BOX MODERN STYLE

Lysaght has been shaping Australian architecture for over 150 years and the rise of Box Modern homes is no exception. The ZENITH® cladding range, with its bold profiles and striking finishes, is designed for this contemporary aesthetic. From dramatic vertical panels to sleek interlocking profiles, it enhances the crisp geometry of Box Modern designs.

Architects and designers favour products from the ZENITH® cladding range for their ability to create a seamless, high-end façade. Manufactured in Australia using genuine COLORBOND® steel and ZINCALUME® steel, every product from the range delivers long-lasting performance in even the harshest conditions.

LYSAGHT – SHAPERS OF COLORBOND® STEEL

COLORBOND® steel is Australian-made pre-painted steel that's supplied to Lysaght in large coils. Lysaght then shapes the COLORBOND® steel (through the process known as rollforming) into our range of roofing and walling products, gutters, fascia and downpipes, fencing systems, plus home improvement products such as verandahs, patios and carports.

Colorbond®

BOX MODERN STYLE

Box Modern architecture is embraced for its bold geometric forms, clean lines and minimalist aesthetic. Inspired by modernist principles, this style strips away unnecessary details, focusing on structure, materiality and function.

In Australia, Box Modern homes have been adapted to suit both urban and coastal environments, sitting invitingly against the surrounding landscape. The style embraces open-plan living, maximising natural light and ventilation, while also incorporating sustainable design elements.

The essence of Australian Box Modern style is a home that is sleek, efficient and highly customisable. With its strong architectural presence, this design provides a blank canvas for personal expression while maintaining a timeless, sophisticated look.

TYPICAL CHARACTERISTICS OF THE BOX MODERN HOME

- Flat or parapet roofs for a streamlined, contemporary appearance
- Crisp geometric forms with stacked, intersecting, or cantilevered volumes
- Large expanses of glass to enhance light and connection to the outdoors
- Minimalist façades with a focus on texture and contrast
- A mix of materials such as steel, concrete, timber and glass

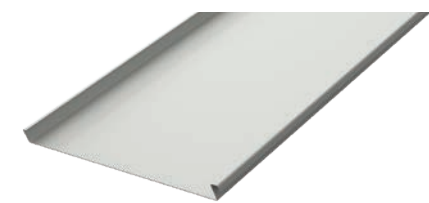

BOX MODERN ROOFING & WALLING PROFILES

The LYSAGHT® roofing and walling range includes profiles that perfectly complement Box Modern homes, shaped from either pre-painted COLORBOND® steel or unpainted ZINCALUME® steel.

ROOFING AND WALLING

The bold, geometric lines of Box Modern architecture demand roofing and walling solutions that enhance its sleek, contemporary aesthetic.

IMPERIAL™
A high-performance standing seam profile, ideal for intricate designs.

ENSEAM®
A sleek, modern profile with broad, flat pans for a bold visual effect.

LONGLINE 305®
Steel roofing or walling featuring tall, slender ribs and broad flat pans.

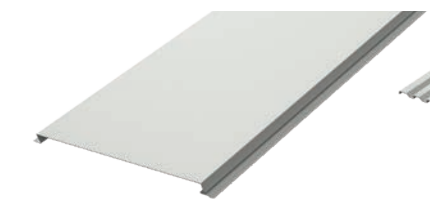

SNAPSEAM™
Nailstrip-style roofing or walling featuring a clean linear appearance.

WALLING ONLY

No Box Modern exterior is complete without sharp, architectural cladding. Defined by clean lines and bold geometry, Box Modern homes rely on premium walling solutions to enhance their contemporary appeal.

LYSAGHT® walling offers a pre-painted, durable alternative to traditional materials, providing a sleek, long-lasting finish that withstands Australia's harsh climate while delivering the striking aesthetic this style is known for.

DOMINION®
Interlocking panel style steel walling featuring recessed joints.

PANELRIB®
A subtly ribbed walling profile ideal where a near-flat appearance is desired.

COMPLETE THE LOOK

In Box Modern architectural design, gutters are generally minimally visible or completely concealed to maintain the clean, geometric aesthetic.

Lysaght offers a range of rainwater goods designed to complement Box Modern designs. Gutters, downpipes and fascia systems are available in streamlined profiles to integrate seamlessly with the home's geometry.

LYSAGHT® rainwater products are available in a selection of pre-painted COLORBOND® steel finishes or left unpainted for a raw, industrial aesthetic.

Colour plays a deliberate role in defining Box Modern aesthetics. The signature palette revolves around clean neutrals: crisp whites, dynamic greys, deep charcoals and black accents.

For a striking contrast, concrete or natural elements such as timber, can be introduced. This balance of industrial and organic textures creates depth while maintaining the style's minimalist integrity.

To achieve the ultimate Box Modern look, Lysaght offers a range of COLORBOND® steel finishes:

- **Matt colours:** Subtle, muted tones for a refined, soft aesthetic.
- **Metallic finishes:** High-end, reflective surfaces for an ultra-modern edge.

WHY LYSAGHT ONLY USES AUSTRALIAN COLORBOND® STEEL

COLORBOND® steel has been made in Australia since 1966 by BlueScope – Australia's largest steelmaker and a global leader in the manufacture of pre-painted steel.

Decades of Australian research and development have gone into creating a range of technologies that give genuine COLORBOND® steel its long lasting performance in Australia's harsh climate.

Renowned for its quality finish and durability, and backed by a material warranty¹ from BlueScope, COLORBOND® steel is one of Australia's most trusted building materials.

Colorbond®

SUSTAINABILITY

At Lysaght, we manufacture our LYSAGHT® steel building products range from 100% Australian-made metallic coated and pre-painted steel. These ingredient steel products are durable and resilient to Australia's harsh climate and their long life helps conserve resources and energy that may otherwise be invested in products with a shorter life span.

All LYSAGHT® steel building products contain recycled content and the steel in LYSAGHT® products is 100% recyclable. In some cases it can be reused without reprocessing, again saving on energy and resource use.

THERMAL EFFICIENCY

Many people know that the colour of your roof can make a difference to your cooling bill and no less than five of the colours in the COLORBOND® steel range qualify as solar reflective (light coloured) roofing under the Green Star Communities tool. But there's another way that COLORBOND® steel can help make your home more energy efficient. Every colour (except Night Sky®) in the standard COLORBOND® steel range features Thermatech® solar reflectance technology. Thermatech® technology is designed to reflect more of the sun's heat on hot, sunny days, which can mean less dependence on air-conditioning, plus reduced heat stress for your roof. The LYSAGHT® product range is available in the full range of COLORBOND® steel colours.

CORSTRIP® PROTECTIVE PLASTIC FILM

Some LYSAGHT® products shaped from COLORBOND® steel are delivered with a plastic film called CORSTRIP® to protect the product from damage during transport and installation. CORSTRIP® is made from 100% low-density polyethylene (LDPE) and is suitable for recycling.
