

LYSAGHT

HAMPTONS STYLE

RELAXED AND TIMELESS

INSPIRATION TO BUILD BETTER

CHARACTERISTICS OF HAMPTONS HOUSES

The Hamptons architectural style originates from the upscale seaside communities of Long Island, New York. Characterised by its casual, beach-inspired elegance, it features a palette of neutral colours, shingle siding, and symmetrical facades. Generous porches, gabled roofs, and multi-pane windows further define this look. Inside, natural light floods spacious interiors adorned with coastal-themed decor. Combining sophistication with a relaxed vibe, the Hamptons style captures the serene essence of seaside living, making it a favourite for both coastal and inland homes.

LYSAGHT® & CUSTOM ORB®

HELPING DEFINE AUSTRALIA'S
HAMPTONS STYLE

Lysaght products have shaped Australian architecture for over 150 years with its famous corrugated steel sheets playing a major role in the design of our homes. This product, now known as CUSTOM ORB®, has been used on many classic Australian structures, from homesteads and stables, to the outdoor dunny and our iconic water tanks.

Loved by architects for its versatility, CUSTOM ORB® compliments any Australian Hamptons style home with its clean lines and classic shape. Lysaght also produces all the necessary gutters, fascia and downpipes to complete your home.

Most importantly, LYSAGHT® products are manufactured in Australia and are exclusively made from COLORBOND® steel and ZINCALUME® steel, so you know the products are tested and proven in Australian conditions.

The innovation that helped shape our country's unique architectural style, CUSTOM ORB® corrugated steel, is part of the fabric of Australia with a legacy of over 150 years.

LYSAGHT – SHAPERS OF COLORBOND® STEEL

COLORBOND® steel is Australian-made pre-painted steel that's supplied to Lysaght in large coils. Lysaght then shapes the COLORBOND® steel (through the process known as rollforming) into our range of roofing and walling products, gutters, fascia and downpipes, fencing systems, plus home improvement products such as verandahs, patios and carports.

Colorbond®

HAMPTONS STYLE

Hamptons is an architecture style inspired by the prestigious beach houses along New York's famous Hamptons coastline. The classic Hampton's home is predominantly white, has a nautical theme, and has a relaxing and clean appeal.

In Australia, the Hamptons style has evolved to include features and characteristics to suit the harsh Aussie climate, and our relaxed lifestyle. Aussie Hamptons is a blend of coastal and country décor styles, with some modern elements. It draws inspiration from its natural surroundings.

The essence of Australian Hamptons style is a contemporary home that is light and open. Usually built around large open spaces for outdoor entertainment, it's a style that seeks to embrace the Australian way of life.

TYPICAL CHARACTERISTICS OF THE HAMPTONS HOME

- Predominantly corrugated gable roofs
- Weatherboard façade
- An alfresco/patio area
- Large windows allowing for lots of natural light
- An open floor plan
- Colour is key - white and light grey are the main colours of a Hamptons exterior

HAMPTONS ROOFING & WALLING PROFILES

The LYSAGHT® roofing and walling range includes option that suit any Hamptons home, shaped from either pre-painted COLORBOND® steel or unpainted ZINCALUME® steel.

ROOFING AND WALLING

The iconic Australian corrugated roof sheeting creates the perfect look for both coastal and country Hamptons style homes.

CUSTOM ORB®
Classic, versatile corrugated roofing or walling.

CUSTOM ORB ACCENT 21®
Deeper, stronger, bolder corrugated roofing or walling.

WALLING ONLY

No Hamptons-inspired exterior is complete without weatherboards. It's perfect for evoking that classic, coastal charm the Hamptons look is known for. LYSAGHT® walling provides a pre-painted, long-lasting alternative to traditional weatherboards, well-suited to the harsh Australian climate.

WEATHERLINE® (QLD Only)
A lightweight, durable weatherboard-style steel wall cladding.

COMPLETE THE LOOK

Lysaght supplies a large range of traditional style rainwater goods including gutters, downpipes and rainheads specifically suited to Hamptons projects. These products are important details that will either need to blend in, or contrast, to your roofing or brickwork. LYSAGHT® rainwater goods are available in either a range of pre-painted COLORBOND® steel finishes or unpainted to allow you to create your own unique styling. Teamed with our range of period style vents they will complete the authentic look of your Hamptons style home.

COLOUR THE HAMPTONS WAY

Colour is a key part of the Hamptons aesthetic. A typical Hamptons design features white or light grey cladding, with a white roof, gutters, and fascia. However, contemporary trends have allowed for a more relaxed take on the traditional Hamptons colour palette.

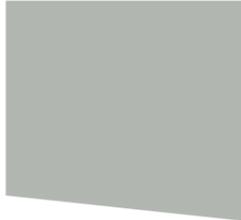

Use shades of white and grey for the main structure, but for the accents, use soft colours that mirror the natural environment. This could include colours such as soft blues, eucalyptus green or earthy linen shades.

To create the iconic white gabled roofs that the Hamptons style is known for, Lysaght now stocks Dover White™ as part of our standard range of colours. Dover White™ is a classic, bright white, perfect for achieving the authentic Hamptons look and feel.

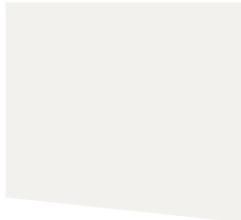

COUNTRY

An earthy colour palette perfect for a Hamptons home among the gum trees.

		
Dover White™ SA = 0.28. BCA = L	Surfmist® SA = 0.33. BCA = L	Southerly® SA = 0.40. BCA = L
		
Shale Grey™ SA = 0.44. BCA = M	Dune® SA = 0.48. BCA = M	Gully® SA = 0.64. BCA = D

COASTAL

A nautical colour palette inspired by white sandy beaches, rolling waves and salty sea air.

		
Dover White™ SA = 0.28. BCA = L	Surfmist® SA = 0.33. BCA = L	Southerly® SA = 0.40. BCA = L

WHY LYSAGHT ONLY USES AUSTRALIAN COLORBOND® STEEL

COLORBOND® steel has been made in Australia since 1966 by BlueScope – Australia’s largest steelmaker and a global leader in the manufacture of pre-painted steel.

Decades of Australian research and development have gone into creating a range of technologies that give genuine COLORBOND® steel its long lasting performance in Australia’s harsh climate.

Renowned for its quality finish and durability, and backed by a material warranty¹ from BlueScope, COLORBOND® steel is one of Australia’s most trusted building materials.

Colorbond®

SUSTAINABILITY

At Lysaght, we manufacture our LYSAGHT® steel building products range from 100% Australian-made metallic coated and pre-painted steel. These ingredient steel products are durable and resilient to Australia’s harsh climate and their long life helps conserve resources and energy that may otherwise be invested in products with a shorter life span.

All LYSAGHT® steel building products contain recycled content and the steel in LYSAGHT® products is 100% recyclable. In some cases it can be reused without reprocessing, again saving on energy and resource use.

THERMAL EFFICIENCY

Many people know that the colour of your roof can make a difference to your cooling bill and no less than five of the colours in the COLORBOND® steel range qualify as solar reflective (light coloured) roofing under the Green Star Communities tool. But there’s another way that COLORBOND® steel can help make your home more energy efficient. Every colour (except Night Sky®) in the standard COLORBOND® steel range features Thermatech® solar reflectance technology. Thermatech® technology is designed to reflect more of the sun’s heat on hot, sunny days, which can mean less dependence on air-conditioning, plus reduced heat stress for your roof. The LYSAGHT® product range is available in the full range of COLORBOND® steel colours.

CORSTRIP® PROTECTIVE PLASTIC FILM

Some LYSAGHT® products shaped from COLORBOND® steel are delivered with a plastic film called CORSTRIP® to protect the product from damage during transport and installation. CORSTRIP® is made from 100% low-density polyethylene (LDPE) and is suitable for recycling.
