STRENGTH & STYLE IN EVERY BUILD

PERFECTING YOUR OUTDOOR LIFESTYLE

Colorbond®

THE ULTIMATE STYLISH ADDITION FOR YOUR HOME

UNLOCK YOUR HOME'S TRUE OUTDOOR LIVING POTENTIAL WITH A LOW MAINTENANCE AND DURABLE AUSTRALIAN MADE SOLUTION FROM LYSAGHT LIVING®.

Whether you're after a verandah, gazebo, carport or building a deck, all designs incorporate 100% Australian-made COLORBOND® steel providing industry-leading structural integrity.

Our diverse range of expertly-designed solutions are the perfect blend of style and substance. You'll extend your home while adding to its value and the lifestyle benefits are endless. Entertain like an expert in chic alfresco surrounds or simply relax in your new outdoor sanctuary all-year round!

A STRUCTURE FOR EVERY OCCASION

PATIOS, PERGOLAS & VERANDAHS

Designed to blend perfectly with your home, our range of patios, pergolas and verandahs will truly maximise your home's potential. With a wide range of options to choose from, flat or pitched, freestanding or attached, we are confident in meeting nearly every design brief - from show-stopping outdoor dining areas to relaxing verandahs that blend seamlessly with your home's existing design.

Whatever style you choose, one thing is certain; all components are fully engineered and tested to Australian standards. COLORBOND® steel's Thermatech® solar reflectance technology even helps your roof and building stay cooler by reflecting more of the sun's heat.

From the smallest components, to the beams and sheeting, it's all about strength, durability, style and comfort.

CARPORTS

If you've made the investment in a new car, boat or caravan, it simply makes sense to protect it. That's where a LYSAGHT LIVING® carport steps in. A solid, durable defence against the harshest elements of the Australian climate, a LYSAGHT LIVING® carport is also custom designed for your needs. As with all our outdoor additions the strong and durable materials are low maintenance giving you peace of mind that your vehicle will be well-protected for many years to come.

GAZEBOS

The *pièce de résistance* of any outdoor space, a gazebo by LYSAGHT LIVING® will instantly add a picturesque focal point to your surrounds. Whether you're looking to create a charming outdoor dining space or simply a peaceful spot to relax LYSAGHT LIVING® gazebos are engineered to leading standards while remaining easy to assemble and maintain.

DECKING

Looking to increase your livability and comfort at home? It's hard to beat the addition of stylish outdoor decking. Whether you're dreaming about creating a gorgeous spot for sunset cocktails or you're simply looking to maximise your indoor/outdoor living opportunities a quality deck is a clever solution that serves a variety of purposes.

When you choose a LYSAGHT LIVING® deck solution you also get all the benefits of steel including its lightweight nature, dimensional stability and the availability of long lengths that suit every unique design challenge.

WHY CHOOSE LYSAGHT LIVING®?

FIVE REASONS WHY YOU'RE MAKING THE RIGHT CHOICE...

1

EXPERTISE AT EVERY STAGE

Your outdoor addition is individually designed to blend perfectly with your home. Our team of experienced dealers use the latest computer software to custom design a solution to meet your requirements. You can choose from a range of LYSAGHT® roofing profiles, translucent sheeting to let the light through or BONDOR® insulated panels. We'll help smooth the path for council approvals with design plans and documents too.

2

THE WORLD OF COLOUR

The wide array of COLORBOND® steel colours allows you to match to your existing décor, such as roofing, guttering and downpipes. And by selecting from the standard range of COLORBOND® steel colours you get the benefits of COLORBOND® steel Thermatech® technology* which can help keep your outdoor area cooler on hot, sunny days. Add lighting or fans for the ultimate finishing touch to your outdoor living space.

3

STRONG FOUNDATIONS

Help protect your home from the elements with Australian-made COLORBOND® steel. More than just painted steel, COLORBOND® steel is manufactured to exact Australian Standards and tested in some of Australia's harshest conditions. This means the beams, roof cladding and gutters in your outdoor addition won't warp, chip or peel and will be resistant to termites and corrosion.

4

THE FLAWLESS FINISH

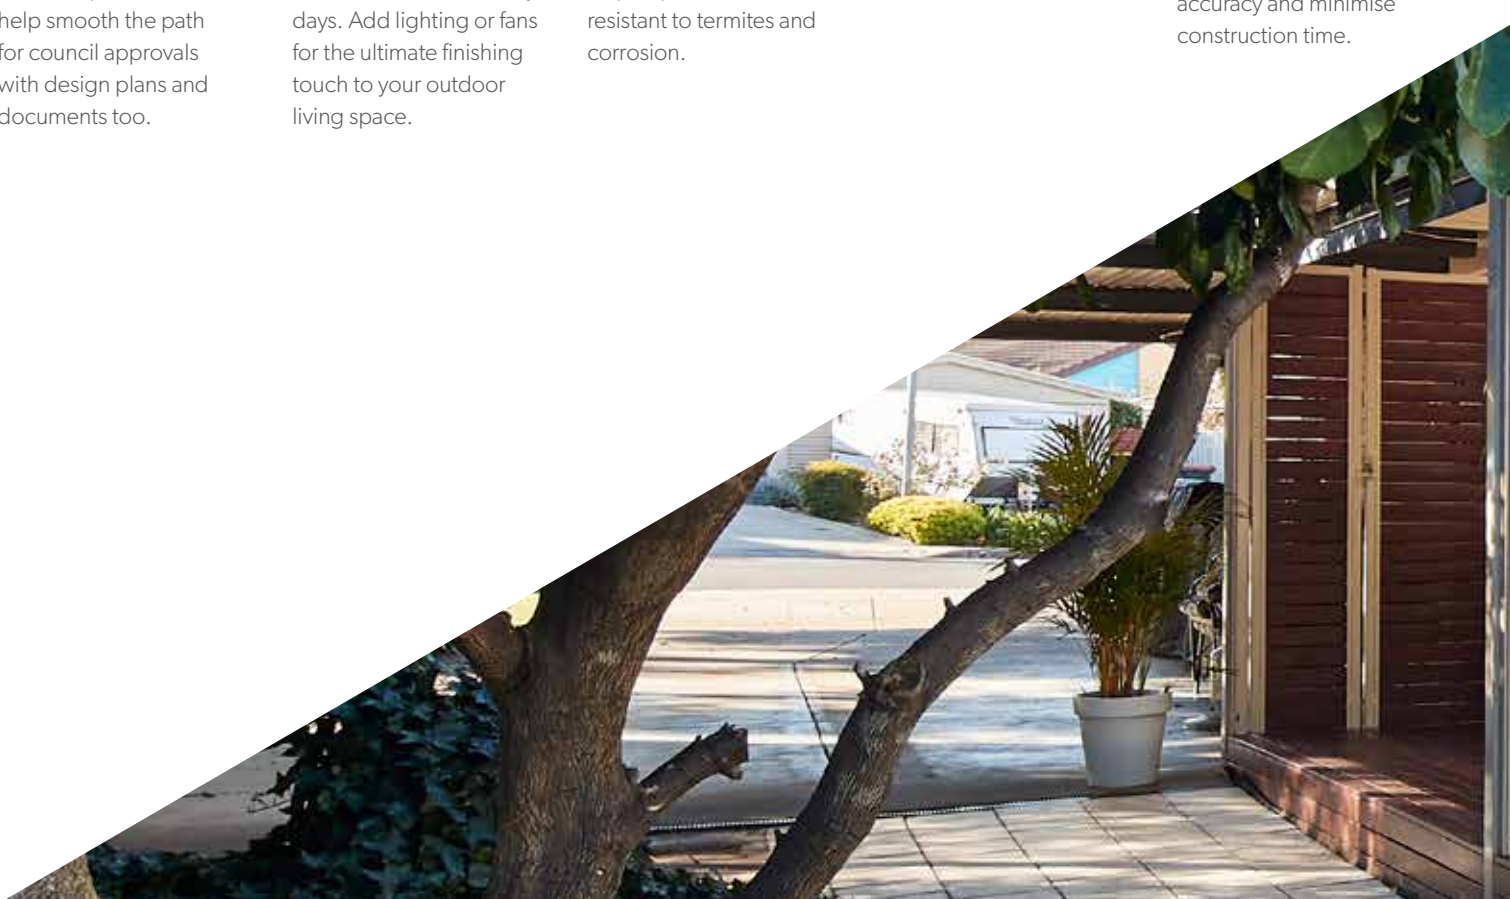

Advanced COLORBOND® steel paint technology provides a durable finish that will resist peeling, chipping and cracking and ensure that your LYSAGHT LIVING® home addition will look better for longer. It's easy to look after too: a simple wash down from time-to-time will keep it looking great for years.

5

PRECISION ENGINEERING

You can be confident that every part of your LYSAGHT LIVING® outdoor addition is rigorously engineered and tested for structural integrity. For your peace of mind, we back this up with a 20-year structural performance warranty.

Our connectors and brackets have been pre-welded and pre-drilled to maximise assembly accuracy and minimise construction time.

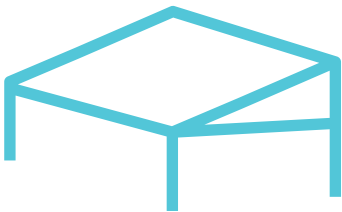

BESPOKE SOLUTIONS FOR EVERY DESIGN BRIEF

EVERY PROJECT BRINGS ITS SPECIFIC REQUIREMENTS AND A NEW SET OF CHALLENGES. WE'RE ALL ABOUT DISCOVERING THE BEST SOLUTION FOR YOUR NEEDS.

YOUR BESPOKE STRUCTURE

WHEN IT COMES TO YOUR HOME THERE'S NO SUCH THING AS A ONE-SIZE-FITS-ALL SOLUTION.

That's why with LYSAGHT LIVING® you can tailor your new home addition with a choice of roof styles to suit your structural or aesthetic needs. Your pick is always backed by the unbeatable industry reputation of COLORBOND® steel roof cladding and translucent sheets. For that added touch of comfort install insulated panels to create a ceiling-like finish while adding outstanding cooling performance for warm Australian summers.

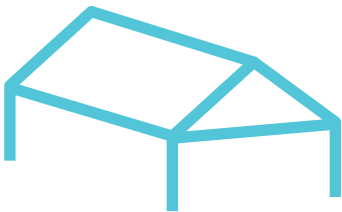

SKILLION

The skillion is a versatile and flexible style that is strong, durable and easy to erect.

This flat or single slope roof blends seamlessly with your home whether attached or freestanding. The ceiling-like finish creates a homely feel that brings your indoors out.

Using 100mm, 150mm or 200mm beams the spans and flexibility can cater to virtually any design you want.

PITCHED (HIP, GABLE OR DUTCH GABLE)

With a wide range of design possibilities, a pitched roof gives a more open spacious feel and can extend from your home or be a freestanding structure.

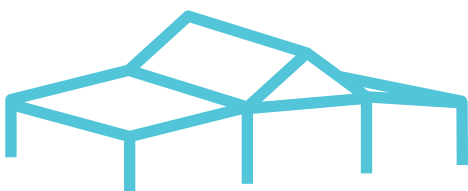

Our LYSAGHT LIVING® pitched roof options include Hip, Gable or Dutch Gable.

GAZEBO & GAZEBO END

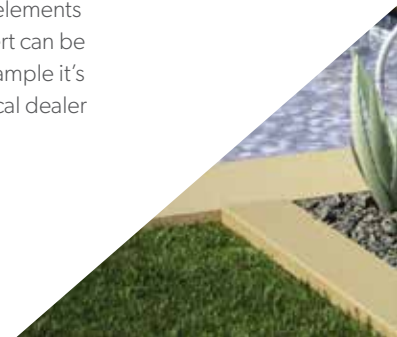

The multi-sided Gazebo is an attractive extension to your outdoor living space particularly if you'd like to mirror an existing multi-sided element of your home. Using a unique sequence of eave and ridge connections this style is engineered for simple installation and a finish that is durable and stylish.

Flexible construction and supports enable the placement of posts to suit your needs. This can be installed as a gazebo end or as a freestanding gazebo.

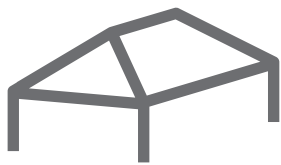

DESIGNER GABLE INSERT

If your space is challenging or you're looking for a unique mix of elements for an attached or freestanding structure our Designer Gable Insert can be custom designed and built to meet your particular needs. For example it's possible to mix a skillion roof with pitched gables. Talk to your local dealer to find out more.

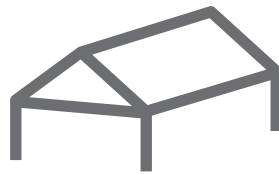

PITCHED OPTIONS

Hip

The Hip roof is a stylish addition that matches the existing architecture of many homes. There are two pairs of slopes, almost always at the same pitch, giving a symmetrical look from a centre line.

Gable

An inverted V shape, the Gable is a simple design that can be either attached or freestanding. This style is flexible in its construction and supports, potentially giving the ability to move posts to the best position for you.

Dutch Gable

The Dutch Gable style is a hybrid that is gable style at top and hipped in the lower section. So if you're after this mixture of pitches and shapes to compliment a traditional Australian roofline, a Dutch Gable may be for you.

IN PROFILE: YOUR COMPREHENSIVE CUSTOMISATION OPTIONS

FOR MORE THAN 150 YEARS, LYSAGHT® PRODUCTS HAVE BEEN A DEFINING PART OF AUSTRALIAN ARCHITECTURE, AND IT'S THIS UNIQUE STYLE THAT WE BRING TO OUR LYSAGHT LIVING® RANGE.

Made from COLORBOND® steel, the choice of roofing profiles and insulated panels give you the opportunity to create your own style and the ideal mix of light, shade and comfort for your outdoor area.

FLATDEK® RANGE

Perfect for creating a flat ceiling like finish with uninterrupted lines and an attractive gloss finish. This range of modern roof claddings is ideal for open-sided carports and patios.

- FLATDEK®: Available in NSW/ACT, SA*, VIC/TAS* & WA*
- FLATDEK® 310: Available in SA*, /VIC/TAS* & WA*
- FLATDEK® II: Available in QLD

*Available in selected colours only

CUSTOM ORB®

With its classic corrugated profile, CUSTOM ORB® is Aussie roofing at its best. This versatile roof cladding is lightweight and strong and will suit both modern and traditional styling. It's a perfect match for a corrugated heritage-style roof.

TRIMDEK®

Commonly used in sheds and fencing, TRIMDEK® makes it easy to create a streamlined look with your outdoor addition. This roofing profile also makes a stylish statement, with its trapezoidal-shaped ribbing and subtle fluting in between.

SPANDEK®

Providing both strength and a high water-carrying capacity this squared-corrugated roof cladding is ideal for an outdoor addition that needs to be highly impact resistant. It combines modern styling with functionality and is suitable for many applications.

LYSAGHT FIRMLOK® BEAMS

Designed to blend perfectly with your roofing profile and colour choice FIRMLOK® structural beams are made from COLORBOND® steel. With a high gloss finish, they are light and strong, delivering both structure and functionality to your outdoor addition.

OTHER OPTIONS

POLYCARBONATE SHEETING

Polycarbonate sheeting allows light to flow through to your outdoor covered area whilst providing UV protection for your family and guests. It is available in a range of profiles to match your steel roof cladding. There are also a range of colour tints to match and blend with your COLORBOND® steel colour choices.

INSULATED PANEL

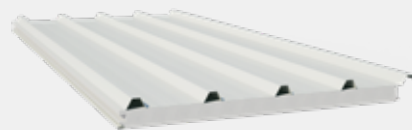

Insulated panels are three-layered insulated roofing solutions featuring COLORBOND® steel on both the top and bottom side that give a smooth ceiling like appearance to the underside of your outdoor addition. The outstanding thermal performance helps balance out temperature fluctuations keeping the space cooler in summer and warmer in winter:

- The high performing polystyrene core provides efficient long lasting insulation and comfort
- Choose from two underside finishes (smooth or profiled) to compliment the styling of your outdoor area
- Long spanning for more clear space and fewer beams
- Choose from 50, 75, 100 and 125mm core thicknesses
- Service cabling ducts available for ceiling lights and fans

Products are subject to availability and may vary from products shown. Please check with your LYSAGHT LIVING® dealer for availability in your area. Our insulated panel products include:

TALK TO OUR EXPERTS

ALTERNATIVELY, IF YOU ARE BUILDING OR RENOVATING, SIMPLY BRING YOUR PLANS TO ONE OF OUR LYSAGHT BRANCHES AND THEY CAN DEVELOP A SOLUTION TO COMPLEMENT YOUR DESIGNS.

Every LYSAGHT LIVING® home addition is designed for long-term durability by experienced designers. Using specialist design software our designers provide a fully costed solution. These plans will also provide the basis for documentation needed for council approvals.

CHOOSE YOUR INSTALLER

When it comes to installation the choice is yours. You can ask your usual builder to use a LYSAGHT LIVING® kit or contact us to find a local dealer. If you'd prefer to do it yourself all our outdoor additions are delivered as a ready to assemble kit with instructions for easy installation.

- Our brackets and connectors simplify the assembly to ensure a quality finish
- Engineered components are pre-welded and pre-drilled to maximise accuracy and minimise installation time
- No need to angle cut beams
