# INTRODUCTION

Co-operative marketing is a partnership Lysaght offers to our trusted network of distributors and authorised resellers. Our co-operative marketing offer is designed to support our customers' local regional and marketing goals.

As a valued Lysaght partner we're proud to offer our trusted distributor network benefits that include:

1. Assistance to create their own marketing materials including signage, advertising, digital assets and point-of-sale materials;
2. Alignment with a trusted Australian brand;
3. Opportunities to advertise this alignment by using our brand in a way that represents our brand correctly; and
4. Aligning their brands with ours to help build further trust with their own customers, backed by Lysaght's 100-year history as an Australian manufacturer.
