PERMALITE[®] PREMIUM CLADDING

UNLEASH YOUR VISION
WITH UNMATCHED PERFORMANCE

INSPIRATION TO BUILD BETTER

INTRODUCING PERMALITE® PREMIUM CLADDING

At Lysaght, we believe in pushing the boundaries of architectural possibilities. Our PERMALITE® Premium Cladding range combines durability, style, and cost-effectiveness to deliver exceptional performance in aggressive environments.

PERFORMANCE MEETS STYLE

Within the dynamic landscapes where Australia's diverse commercial, industrial, recreational, and residential activities unfold, exceptional building materials are imperative. Enter PERMALITE® Premium Cladding, the ultimate solution.

Crafted from a specially developed marine-grade aluminium alloy, this contemporary collection of roofing and walling products embodies the ideal fusion of strength, lightweight composition, and unparalleled resistance to corrosion in aggressive environments. Yet, its advantages extend beyond these attributes. Supported by robust warranties and backed by Lysaght's in-depth product knowledge, technical prowess and design expertise, PERMALITE® Premium Cladding ensures enduring performance without aesthetic compromise.

PERMALITE® PREMIUM CLADDING RANGE

Experience the pinnacle of sophistication and performance with our PERMALITE® Premium Cladding range. Featuring PERCIPERE® nailstrip, PERPETUAL™ standing seam, and ALURE™ interlocking panel styles, these contemporary roofing and walling products combine exceptional performance in harsh, corrosive environments with uncompromising aesthetic appeal. Elevate your architectural design with PERMALITE® Premium.

PERCIPERE®

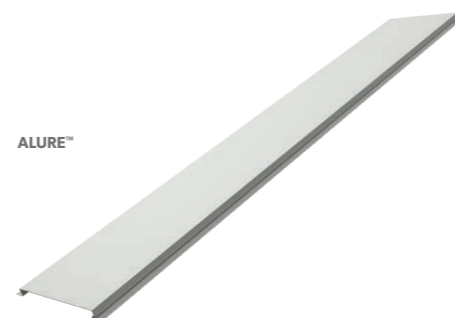

Providing all the performance benefits of a nailstrip-style profile with the ease of clip-fixed installation, PERCIPERE® offers a cost-effective, refined finish for buildings in aggressive environments.

PERPETUAL™

Featuring flat pans and precise, refined ribs, classic standing seam PERPETUAL™ provides a tasteful, contemporary cladding option in aggressive environments.

ALURE™

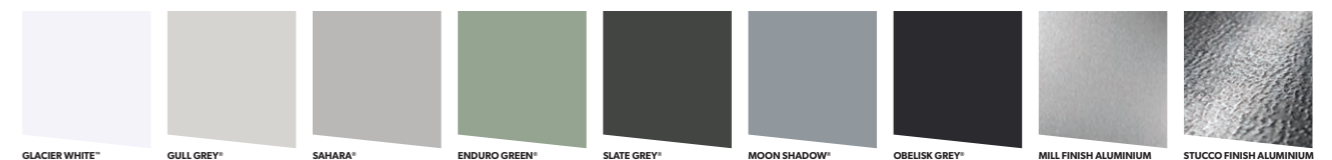

Comprising raised, flat panels highlighted by recessed express joints, ALURE™ aluminium cladding delivers a sleek, modern appearance on any building.

COLOUR CHOICE FOR DESIGN FLEXIBILITY

Don't compromise on aesthetics when choosing a cladding solution for aggressive environments. PERMALITE® Premium Cladding is available in a variety of standard colours to complement any architectural vision. From coastal resorts and homes to non-residential buildings, PERMALITE® Premium Cladding offers outstanding durability while enhancing the visual appeal of your project.

COLOURS & FINISHES

Other colours are available by enquiry dependent on the size of the project.

PERMALITE® PREMIUM CLADDING: THE SMART CHOICE

When it comes to aggressive environments where corrosion is a major concern, PERMALITE® Premium Cladding stands out. The marine-grade aluminium alloy base delivers long-term performance and durability, while the proven pre-painted finish ensures residential, commercial and industrial buildings stay looking good for years to come in even the harshest environments.

DURABILITY PLUS

Durability is a key factor in the design and construction process. With PERMALITE® cladding, durability goes beyond skin deep. The aluminium substrate forms a cohesive oxide layer on the surface, which not only protects the aluminium but can self-repair if damaged. This unique characteristic, coupled with its resistance to moisture absorption and other environmental factors, makes PERMALITE® Premium Cladding the ultimate choice for longevity and performance.

LIGHTWEIGHT ADVANTAGE

Weight considerations play a crucial role in structural design. PERMALITE® Premium products weigh less than their steel equivalents, providing a positive impact on structural element design. The lightweight nature of PERMALITE® Premium Cladding can also offer material handling advantages, reducing crane costs and labor requirements during installation.

THE SUSTAINABLE CHOICE

Sustainable development is a priority in today's architectural projects. PERMALITE® Premium Cladding is a prime example of sustainability in action. At the end of its service life, our products can be fully recycled, preserving our finite resources for future generations.

EXCEPTIONAL WARRANTIES FOR PEACE OF MIND

When you choose PERMALITE® Premium Cladding, you're choosing a product that comes with exceptional warranties. Our marine-grade aluminium products are backed by warranties of up to 35 years for structures near marine environments and up to 40 years for other applications.

PRODUCT DESCRIPTIONS

All descriptions, specifications, illustrations, drawings, data, dimensions, and weights contained in this publication and websites containing information from Lysaght are approximations only. They are intended by Lysaght to be a general description for information and identification purposes and do not create a sale by description. Lysaght reserves the right at any time to:

- a) Supply goods with such minor modifications from its drawings and specifications as it sees fit, and
- b) Alter specifications shown in its publications and websites to reflect changes made after the date of publication.

Not all LYSAGHT® products are available in all materials, finishes and colours shown. Material, finish and colour availability is indicative only and is subject to change without notice – contact Lysaght, your reseller, builder, or installer for more information.

The colour swatches shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process, as well as differing screens and devices may affect colour tones and finishes.
